

Mr Mark Scholey  
Deputy Head of School  
Dulwich Prep London  
Alleyn Park  
SE21 7AA

13 November 2021

Dear Mr Scholey,

I am writing to you because I've heard about COP26 and I think that it is a good time to think about what DPL are doing to the world and how we can make it better.

I am very keen on saving the Environment and helping the planet and I have adopted a jaguar from WWF as part of my concern for the planet and its creatures.

I have two ways that our school can tackle climate change.

1. One thing I have noticed outside of school is that parents are keeping their car (and especially fuel) engines on and I think we should convince them to switch them off when not in use. We could convince them with posters we put around DPL and outside the school on the railings. They could be created in ART.
2. Also, at school we use LOADS of paper for our work so I think we should use recycled products for stuff like our notebooks and toilet paper.
3. Finally, we should plant more trees in Mary Datchelor and Grange Lane because there is a lot of space and plants breath in CO<sub>2</sub> and excrete O<sub>2</sub> which helps the environment and slows down global warming

I really hope that we can tackle climate change as a unit.

Yours sincerely,

James P
